## **ABOUT THIS PACK**

This teaching resource pack has been handpicked by the Teach Starter team to include a range of resources that can be completed at home by children with the assistance of their parents or guardians.

The pack includes resources covering the key learning areas of English, Maths and Science, along with some additional craft and mindfulness activities - all for free!

In the rare event of a school closure or if a student needs to work remotely, this pack can be sent home with students or passed on directly to parents and guardians digitally to allow for students to complete the work with minimal preparation and supervision.

The pack is designed to allow for non-teachers to understand and implement the activities in a home environment without requiring additional resources found in a classroom. The pack can be completed digitally on a tablet/iPad or with pen and paper when printed.

### **For Teachers**

#### **Can I share this pack with parents, students and other teachers?**

Of course! This pack has been created specifically for this purpose. Please feel free to share this pack digitally with your students, their parents or guardians, or other teachers.

You can share by copying the URL in the address bar of your browser, or simply clicking on the envelope icon above to send to an email address. You can also download the pack, and email the PDF document itself.

Please feel free to bundle this pack with your own home learning activities to extend or reinforce particular concepts for your students. You may also like to add specific activities such as reading, outdoor play, fine motor skills etc.

### **For Parents**

#### **How can I teach my child if their school closes?**

By downloading this free resource pack, you will be equipped with a wide range of activities to share with your child while their school is closed.

We have ensured that this pack can be delivered by non-teachers by providing a helpful table of contents and activity overviews. All activities are age-appropriate and most will relate to work that your child has experienced in the classroom.

The activities can be completed in any order and have been selected to allow parents and guardians to easily implement them.

# YEAR 5

## CONTENTS

### English

#### *Editing*

#### **2 x Editing Worksheets - The Solar System and Music Players and Your Hearing**

Students are required to edit the pieces of text using the provided editing symbols and then re-write the text correctly. There are 20 errors in each piece of text.

#### *Reading*

#### **10 x Comprehension Worksheets**

A comprehensive set of worksheets that cover a variety of comprehension skills. Students are required to read the text and answer the questions either in a workbook or using the sheet provided. There is a Crazy Creative Challenge for each comprehension skill that can be completed also.

#### **Book Review**

Students can pick a recent text they have read and then complete this Book Review template.

#### *Grammar*

#### **Verb Past Tense Worksheet**

Students are required to add the simple past tense verbs to complete the sentences.

#### **Grammar Crossword**

Students can complete this Grammar Crossword using the words down the side as the answers to the clues.

#### *Spelling*

#### **Word Work Grid - V1**

Students use this grid of 15 activities when working with their spelling words. The activities can be completed using the provided templates or in a workbook.

#### **Word Work Grid - V2**

A second version has been provided to work with a new set of spelling words.

#### *Persuasive Writing*

#### **Persuasive Writing Stimulus - All Families Should Own a Pet**

Students use this sheet when they require a brain break or at the end of the day.

#### **Moving Lines - Art Activity**

Students use this activity to explore the use of line to create movement.

## The Cat and the Whale

A long time ago, some ferocious pirates went sailing in their ship.

One of the pirates decided to bring his pet cat along for the adventure. Suddenly, when they were out in the middle of the ocean, a terrible storm overturned the ship. All of the pirates fell into the ocean. The pirate's cat was scared and feared that he would drown. Luckily, a whale swam past and rescued the cat.

Eventually, the cat and the whale came to a tropical island. The cat walked down off the whale's back and jumped onto the golden sand. The whale asked the cat, "Do you know this island?"

The confident cat replied, "Yes! The king of this island is my best friend and I am a prince!"

The whale knew that the island was empty. He said to the cat, "You're a prince? I didn't know! Well, now you can be a king!"

The cat was confused and answered, "But how can I be a king?"

The whale started to swim away and replied, "Easy! There's no other creature on this island. You will automatically be king!"

**Moral: Those who lie and boast may end up in trouble.**

## Charlie and the Chocolate Factory

In the holidays, Sam and Tom read the book, 'Charlie and the Chocolate Factory'. Afterwards, they watched the movie.

Both the book and the movie tell the story of a poor boy named Charlie. He wins a golden ticket from a chocolate bar to go on a tour of Willy Wonka's amazing chocolate factory.

After reading the book and watching the movie, Sam and Tom debated which one was better.

Sam preferred reading the book, as it was very descriptive and it allowed him to use his own imagination to bring the story to life. He also felt like he was going on an exciting journey with the main character, Charlie. He liked that he could pick the book up and read it whenever he wanted, making the story last longer.

Tom enjoyed watching the movie, as he was able to see all the characters and see what Willy Wonka's chocolate factory looked like. He loved singing along to the Oompa-Loompa song and laughing out loud at some of the misfortunate things that happened to the other children.

Sam and Tom both liked Charlie's story because it was funny and about chocolate!

## Charlie and the Chocolate Factory

## The Case of the Missing Cookie

It was 3:23 pm when the delicious chocolate-chip cookie went missing. I know the exact time because the delivery man came to the door. The cookie was sitting on a plate on the kitchen bench when I walked out to answer the door. By the time I came back, it was gone! I remember that I signed for the package that was delivered at exactly 3:23 pm.

I was distraught! I decided to search the kitchen for clues to find out who stole my scrumptious cookie. As I was looking around, I found some short brown hairs by the bottom of the bench, just below where my cookie had been sitting. I continued to search further and found a tennis ball, just around the corner. It had chocolate-chip cookie crumbs on it! Who would have dropped short brown hairs on the floor and left crumbs on a tennis ball?

There was a trail of crumbs leading toward the back door, which was open. The crumbs led down the back stairs and onto the grass. As I followed the trail, I saw...

## The Case of the Missing Cookie

## Paul the Policeman

One sunny day, Paul the Policeman was eating his lunch in the city park. Suddenly, he looked up and saw a duck stealing a big bag of grapes from the nearby fruit shop. Paul the Policeman threw down his sandwich and ran after the cheeky duck, calling his other police friends on the radio for backup.

Soon, the duck was surrounded by Paul the Policeman and his other police friends. It had nowhere to hide. Paul then discovered that the duck was actually the famous Fruit Shop Bandit who had been stealing fruit from shops all over the city.

Paul the Policeman put the duck in his police car. He turned on the sirens so that he could quickly rush the duck down to the police station for questioning.

Later that week, the chief police officer gave Paul the Policeman a special award for his great work. Thank goodness he had captured the *Fruit Shop Bandit*... the city was safe, at last!

## Don't be Late for School!

Amelia woke up and saw that she was running late for school. She jumped out of bed and started to get herself ready. She couldn't be late again, as she was already in trouble with Mrs Holder for being late two days last week!

As quickly as possible, Amelia put on her school uniform, tugged on a pair of socks and shoved her feet into her black school shoes.

Amelia then looked in the mirror. Her hair was a mess! She grabbed her hairbrush and yanked it through her hair. Amelia splashed some water on her face and then ran downstairs to have some breakfast. She slid two pieces of bread into the toaster and grabbed herself a glass of juice while she waited. Stuffing toast into her mouth, Amelia ran back upstairs to brush her teeth.

On her way out the door, Amelia grabbed her school bag and started running down the driveway. That's when she remembered she had forgotten her lunch!

Amelia ran back to grab her lunch off the kitchen table. She was finally on her way!

## Don't be Late for School!

- Which one of these things did Amelia **not do** before having breakfast?
  - splash some water on her face
  - run down the driveway
  - brush her hair
- Number the following sentences in the order they happened.

## Milkshake Mania!

"You can feel the excitement in the air," said business owner Mary Milkmaid. Today was the grand opening of Mary's Milk Bar.

"I will be serving the best milkshakes in the world!" declared Mary as she cut the ribbon at the official opening.

Mary makes the milkshakes using 2 scoops of ice-cream, 3 shots of syrup and 2 cups of creamy milk. She says that she makes every milkshake with love and that it is the best milkshake you will ever have.

Travis was the first person to order a milkshake from the new milk bar. He decided to have a chocolate one. "I think chocolate is the best. I'm sure all of Mary's milkshakes are great though," he said as he slurped on his chocolate milkshake.

On the opening day, Mary sold one hundred and eight milkshakes. She declared the day a great success and couldn't wait to make more milkshakes tomorrow!

## Slip, Slop, Slap!

The sun's rays can be both beneficial and dangerous to your body. The sun's ultraviolet (UV) radiation is your best natural source of vitamin D. Vitamin D is important for healthy bones, muscles and teeth. However, the sun's UV radiation can also cause sunburn, damage to your eyes and skin cancer.

Whenever you are heading outside, it is important to be sun-smart. Some things that you can do to make sure you are protected from the sun's rays include:

- wearing sun protective clothing
- putting on some sunscreen
- wearing a wide-brimmed hat
- finding shade
- wearing sunglasses.

Once you are protected, you can enjoy lots of fun outdoor activities including sport, going to the beach, playing on a playground or even just walking outside to enjoy the outdoors.

## Something Scary in the Night

"We're here!" yelled my brother Glenn.

After two hours of travelling in the car with my annoying brother, we finally pulled up behind the moving truck, full of our furniture.

I felt absolutely ecstatic! I ran as fast as I could to see my room, my very own room! No more sharing with the most annoying, loud and disgusting brother!

I skipped along the hallway to my room, opened the blinds and started to plan how I was going to decorate it. "Be careful of the monsters that come out at night," snarled Glenn as he stomped past my bedroom.

That night I lay on my bed, enjoying the peace and quiet. Suddenly, I heard a whooshing sound - like someone was walking past my bedroom. I thought it was strange, but kept looking around my beautifully decorated room.

Thump, thump, thump. I thought my mind was playing tricks on me. I heard footsteps that sounded like they were in my room. I stood up and walked over to my bedroom door. I couldn't see anything. I climbed back into bed, just in time to see a shadow slide past my bedroom door. I quickly hid under my blanket. My brother was right! I decided to...

## Australia Day

On January 26 each year, we come together as a nation to celebrate how good it is to be Australian. We also identify some of the great things about our country.

We also remember Indigenous Australians and acknowledge them as the original owners of the land, before British settlement in 1788.

On Australia Day, some people from other countries who currently enjoy living in Australia, become Australian citizens. This takes place at special citizenship ceremonies.

Most people in Australia celebrate Australia Day by attending one of the many public events in their local community. These include concerts, fireworks, awards ceremonies and fundraising events.

On Australia Day, people like to display Australian flags outside their houses, or on their cars. It is a wonderful day to spend time with family and friends. Many people enjoy a traditional Australian barbeque on Australia Day.

## Australia Day

1. Using a mind map, identify some key words that summarise the main ideas from the Australia Day text.

# All Families Should Own a Pet

## Reasons For

- Owning a pet teaches children to be more responsible.
- Owning a pet helps to reduce loneliness and stress.
- People who own pets are healthier than people who do not.
- Sharing the care of a pet brings families closer together.
- Caring for a pet teaches children how to be loving and affectionate to others.

## Reasons Against

- Some families do not have enough money to properly care for a pet.
- Some families do not have enough time to properly care for a pet.
- Some people do not like animals, or may be allergic to them.
- Some pets have diseases which they can pass on to humans.
- Animals do not belong in people's homes; they belong in the wild.

# The rain was pouring down...

Today you are going to write a narrative (a story).

The topic you have been given for your narrative is 'The rain was pouring down...'

## Think:

What do you want your story to be about? Your story might be about something that happened when it was raining, a problem that occurred in the rain or a tricky situation as a result of lots of rain.

## Plan:

Plan your writing before you begin and decide who your characters are, the setting of your story, the complication or problem and how it is solved and how the story will end.

## Remember to check:

- your spelling and punctuation is all correct
- that you have used sentences
- that you have stayed on topic
- that you have edited your writing.

## The Scenario

A popular home renovation show is holding a design competition. School children around the country have been asked to submit designs for a colourful floor rug to be featured in a newly-renovated home. Your class has decided to enter. If your class design is chosen, it will be made into a rug and then featured on the show. Your teacher has asked each student in your class to submit a design for the floor rug. The class will then vote on the best design. The most popular design will be entered into the competition.

## Competition Rules

The producers of the television show have written the following list of competition rules:

- All floor rug designs must be submitted on the template provided. The template is a large rectangle, consisting of six rows of smaller squares, with four squares in each row (24 squares all together).
- Only primary and secondary colours may be used in the design. These colours are red, blue, yellow, purple, orange and green. Each of these colours must be used at least once on the design.
- Colours should be placed thoughtfully to create a pattern. Designs that do not display any kind of colour pattern will be disqualified.
- All squares on the floor rug design must be coloured with at least one colour. A maximum of two colours is allowed in each square. The number of squares per colour must add to a whole number.
- All competitors must provide a mathematical analysis of their floor rug design, using the worksheets provided. This will assist the producers to order coloured fabrics for the winning design.

## The Procedure

### 1. Check your understanding of the task

Carefully read through the task and the list of competition rules. If there are any instructions that you do not understand, ask your teacher to explain them to you.

### 2. Plan your design

Plan a colourful design for your floor rug. A blank template is provided for you. Remember, according to the competition rules, the placement of colours must create a pattern.

### 3. Check your design

Reread the list of competition rules. Carefully check that you have designed your floor rug in accordance with these. Make sure that your design has not broken any of the competition rules, either!

### 4. Create your floor rug

Draw and colour your floor rug design using the second blank template.

### 5. Analyse your design

Use your knowledge and understanding of fractions to answer a series of questions about your floor rug design.

6. Present your design to the class. Explain how you met all of the competition rules. As a class, vote on each floor rug to determine the most popular design.

## PANDORA'S PARTY PALACE

To help celebrate New Year's Eve, Lilly bought some decorations from Pandora's Party Palace. Her budget for decorations was \$100.

What combinations of decoration could Lucy buy for New Year's Eve?

List some possibilities, and then calculate the total cost Lilly spent on decorations.

## PANDORA'S PARTY PALACE

You have been given a budget of \$200 to organise your own party, using items from Pandora's Party Palace.

After deciding on how many guests you will invite, make a list of the items you will buy and their total costs.

Calculate the total cost of the party to check that you have come in under budget.

# What are Adaptations?

**Read the passage about adaptations, then answer the questions below.**

Adaptation is the process which enables organisms to adjust to their environment in order to ensure their survival. This process is sometimes referred to as the evolution of species.

Adaptations often occur because of a genetic mutation. A genetic mutation is an alteration an organism is born with. For example, a bird may be born with a slightly longer beak; a shark may be born with slightly stronger fins or a frog may be born with slightly longer legs. If these mutations are successful, and help the animal to thrive in their environment, the animal may pass the same characteristic on to their offspring. As time passes, the mutation may eventually be found in all members of that species. However, this process is very slow.

There are three types of adaptations; structural, behavioural and physiological. Most animals and plants will have a combination of these three types of adaptations.

Structural adaptations are the physical features of an organism that enable them to survive in their environment. For example, a penguin has thick blubber to protect itself from the freezing Antarctic temperatures. Camels can close their nostrils, to prevent desert sand from entering their noses. Rainforest trees have wide, waxy leaves so the rain runs off them easily.

Behavioural adaptations are the actions of an organism that enable them to survive in their environment. For example, bears hibernate in winter to escape the cold temperatures and preserve energy. Lizards seek out the morning sun to warm up their cold-blooded bodies more quickly. Fish swim together in groups (or schools) to protect themselves from predators.

Physiological adaptations are internal or cellular features of an organism that enable them to survive in their environment. For example, snakes produce poisonous venom to ward off predators and to capture prey. Some plants contain toxins to prevent them from being eaten by herbivorous animals. The Australian koala has a slow metabolism which keeps their food in their digestive system for longer, giving them as much energy as possible from their limited diet.

## Questions

1) In your own words, describe the adaptation process.

---

---

---

2) What is a genetic mutation? Provide one example.

---

---

---

3) What might happen if a genetic mutation proves to be successful?

---

---

---

4) What are the three types of adaptations? Provide an example of each.

5) Decide whether the following statements are true or false.

- |   |              |
|---|--------------|
| a) Evolution is a very speedy process.                                  | True / False |
| b) An animal may pass a genetic mutation on to its offspring.           | True / False |
| c) Plants do not have structural adaptations.                           | True / False |
| d) Animals can change their behaviour to better suit their environment. | True / False |
| e) Physiological adaptations can be difficult to see from the outside.  | True / False |

# MOVING LINES

## ACTIVITY INSTRUCTIONS

### Task

Experiment with using line to create movement, in the style of Op Art. You may choose to work in black and white or in two contrasting colours.

### Materials

A lead pencil

White card

Ruler

2 contrasting coloured felt pens OR a black felt pen

Ideally, fine-tip felt pens in the same colour

### Procedure

1. Using your lead pencil, place a small, off-centre dot in the top (or bottom) third of the card.

2. Using a ruler, draw 6 lines that start at the edge of the page and pass through the dot, so the lines all intersect. Each line should start and finish at an edge. These intersecting lines will create triangular sections. Try to place your lines so that the sections are different widths, i.e. they're not all equidistant.

3. Start in one triangular section and draw a curved line across to the next section. Join this section to the next, but change the direction of the curve.

## Procedure (cont.)

4. Continue creating concentric curved lines, alternating the direction of the curve for each section. Gradually widen the bands as you move away from the dot where the lines intersect.

5. You will need to colour alternate segments until they resemble a chequerboard. To avoid mistakes, label each segment in pencil first, so you know which colour to use.

6. Start at the point where the lines intersect. Choose 1 colour and begin to fill in the alternating segments. Work your way around the design. It is best to use a fine-tipped pen at first, because the segments close to the dot are so small.

7. Gradually work your way out from the centre, shading the segments and using a thicker felt pen once the segments become larger.

8. If you are working in a single colour, or in black and white, leave the rest of the segments white. If you are using a second colour, fill the contrasting segments in the same way.

9. When you are finished, your artwork should confuse the eye and appear to move by itself.
